

# SUPPORT FOR BUSINESSES FEDERAL GOVERNMENT

The Federal Government announced a second round of support measures for businesses impacted by COVID-19. We have summarised a number of these programs below, but operators should review the information to see if it applies to them and their individual circumstances.

## Temporary cash flow support

These payments will support the cash flow of businesses and not-for-profits so they can keep operating, pay their rent, electricity and other bills and retain staff.

Employers will now receive a payment equal to 100 per cent of their salary and wages withheld (up from 50 per cent in the first round of support), with the maximum payment being increased from \$25,000 to \$50,000 and the minimum payment increased from \$2,000 to \$10,000.

An additional payment is also being introduced equal to the total of all the Boosting Cash Flow for Employers payments received. This means that eligible businesses will receive at least \$20,000 up to a total of \$100,000 under both payments.

## Assistance to help pay the wages of apprentices or trainees

Eligible employers can apply for a wage subsidy of 50 per cent of the apprentice's or trainee's wage paid during the 9 months from 1 January 2020 to 30 September 2020. Where a small business is not able to retain an apprentice, the subsidy will be available to a new employer.

Employers will be reimbursed up to a maximum of \$21,000 per eligible apprentice or trainee (\$7,000 per quarter).

## Temporary assistance for financially distressed businesses

The Australian government has made some changes to key legislation to lessen the threat of actions that could unnecessarily push them into insolvency and force the winding up of the business.

The Government is temporarily increasing the current minimum threshold for creditors issuing a statutory demand on a company from \$2,000 to \$20,000. This will apply for six months.

To make sure that companies have confidence to continue to trade through the Coronavirus health crisis with the aim of returning to viability when the crisis has passed, directors will be temporarily relieved of their duty to prevent insolvent trading with respect to any debts incurred in the ordinary course of the company's business.

# SUPPORT FOR BUSINESSES STATE GOVERNMENT

The State Government has announced support programs for business in Queensland impacted by COVID-19. We have summarised a number of these programs below, but operators should review the information to see if it applies to them and their individual circumstances.

## Queensland COVID-19 jobs support loans

Queensland businesses may be eligible for a loan to retain employees and maintain their operations.

The \$500 million concessional loan facility will include low interest loans of up to \$250,000 for carry on finance with an initial 12-month interest free period for businesses to retain staff.

The Queensland Rural and Industry Development Authority (QRIDA) is responsible for the administration of these concessional loans and is currently taking expressions of interest in the lead up to rolling these loans out as soon as possible.

To register your interest in these loans email [contact\\_us@qrda.qld.gov.au](mailto:contact_us@qrda.qld.gov.au) or call **1800 623 946**

## Payroll tax relief package

Businesses that have been affected by the coronavirus (COVID-19) pandemic can defer paying payroll tax returns until 31 July 2020. Businesses will still have to lodge payroll returns as normal and will have to pay the payroll tax following the deferral period.

Click [here](#) to find out more about this program and to apply for deferral.

## Further support

The health and safety of our operators and customers remains our top priority. Please ensure that you and your staff are maintaining a high level of hygiene, including regular and thorough hand washing, and avoiding touching your face.

Please also wear appropriate PPE in your work handling containers including gloves and eye protection. Please contact your Contract Manager if you are having trouble sourcing PPE for your site. Consider implementing measures that encourage social distancing at your site such as bag drops and queue management.
